REF: EverComp 26.1 FRP Composite Sheet Pile
Corona Road Weir Safety Project
St. Johns County, FL

Dear Mr. Hazenberg:

I was the Project Coordinator familiar with the above referenced project. We used the EverComp 26.1 in a cantilevered design for the above referenced project which included supporting a layer of soft muck.

The product performed as designed and we would use it where applicable on future projects. In fact, we have just placed a purchase order another one of our projects, Roscoe Blvd.

Sincerely,

A handwritten signature in blue ink, appearing to read "Mike Adams".

Mike Adams,
Project Coordinator
